

Dear SIG 8 members,

With this newsletter, we would like to provide a brief report on (1) the SIG 8 activities organized last summer, including the ICM 2022 in Dresden, and (2) an overview of some future activities of SIG 8.

SIG 8 Summer 2022

ICM 2022:

The ICM 2022 was finally held in Dresden as a hybrid conference from August 24th to August 26th 2022. In total, the conference had 187 in-person and 88 online participants. It was preceded by the Summer School with 24 PhD students and 6 teachers. It was a great and inspiring conference experience and we want to thank again all of those who contributed to this conference!

Last chance. The conference Virtual Venue can still be accessed few more days, until the end of September. The slides to our Business Meeting can be found [here](https://drive.google.com/file/d/1_8LnrWmGzaGEhevtMaa_Zjf971BkwK2G/view?usp=sharing).

Lifetime Achievement Award:

The Life Time Achievement Recognition 2022 was awarded to Thea Peetsma, [Professor of Learning and Motivation \(Emerita\), University of Amsterdam](#), at the ICM 2022 in Dresden. We congratulate her warmly for this very well deserved award!

JURE 2022 conference:

Invited SIG 8 Symposium took place at the JURE 2022 Conference in Porto. Three research teams from three different countries presented their studies on the topic “The Role of Motivation and Emotion in Education in Challenging Times”.

SIG 8 collaboration with other SIGs:

- We had a joint conference day with the SIG 16 Meta cognition and Self-regulated Learning as part of the ICM 2022
- SIG 16 PhD students were invited to participate in the Summer School 2022
- SIG 27 (Online Measures of Learning Processes) invited SIG 8 to organize an invited symposium in their conference organized in Southampton, United Kingdom from August 30th to September 2nd 2022 We hold a successful symposium with three presentations and a discussion by Prof. Roger Azvedo titled “*SIG 8 goes SIG 27: Research on motivation and emotions in learning from a process-oriented perspective*”

In-between the conferences activities

Social Media:

We reactivated our Twitter account and would like to use it more actively in the future. Please follow us @EARLSig8 and post all related information there! We also still use our Facebook groups (EARLI SIG 8 and EARLI SIG 8 - junior researchers) to share information, so please join them if you have not done so yet.

How to..? Talks:

From March 2022 we started a new networking format for junior and early career researchers. During short bimonthly meetings around lunch time researchers meet to talk about topics that are highly relevant to early stage scientific career researchers, such as how to expand your academic network, how to get your paper published, or how to present at conferences. The next event "How to...plan a research project?" will be on November 7 2022. Please register for the next talk [here](#).

Future SIG 8 activities

EARLI 2023

The due date for submissions to the EARLI conference 2023 in Thessaloniki is approaching (October 27th 2022, see <https://www.earli.org/EARLI2023>). Don't miss it! We look forward to seeing many of you there!

Traditionally, we have organized an invited symposium in the EARLI conference. We would like to find a current, future-looking topic that is of interest to our SIG 8 members. This SIG 8 invited symposium is a great opportunity to reach a wide audience and present a state-of-the-art of the research conducted by our SIG 8 members. To this end, we would like to invite you to suggest topics for such a symposium by October 2nd 2022 here:

Next ICM 2024 and Summer School

We are happy to announce that the next ICM 2024 will be held in Bern, Switzerland! We encourage you to reserve the dates: August 28th to August 30th 2024. ICM 2024 will be organized by the Institute of Educational Science, Department of Research in School and Instruction, University of Bern. Preliminary Topic: "Motivation & Emotion: Challenges and resources for teaching, learning, and research". Prior to the conference will be a 2-day Summer School for junior researchers to present their research and connect with each other.

Best wishes,
Hanna G., Hanna J., Julia, & Juliane
SIG 8 coordinators
